B. Name of Server Host 2:

Account Name: _____

Account #: _____

Server IP Address: _____

Server User Name: _____

Server Password: _____

Special Instructions: _____

- 2.** Access to domain name host for EE22.app software developers to set up software and DNS. Alternatively - If client is licensing software that is already set up on a domain name owned by EE2E.app, client must have a domain name register (i.e. GoDaddy) for EE2E.app to transfer the domain name to client name.

A. Name of domain name controlled by client

B. Name of Client domain name register

Domain name register website: _____

NOTE:

- It is required for EE2E.app software to have your domain name “Nameservers” set to your server host you have selected. This is done on client domain name register website or by calling the domain name register
- IF you choose to have an optional Cloudflare account, the “Nameservers” will be set to Cloudflare, if you do not choose to have a Cloudflare account the Nameservers will be set to your server host Nameservers.
- See 3 below

- 3.** Optional Cloudflare.com account (RECOMMENDED, Cloudflare offers free plans). Access to the client Cloudflare account for EE2E.app software developers to set up software and DNS

Cloudflare account email: _____

Cloudflare password: _____

Notes: _____

4. A signed and agreed to EE2E.app licensing agreement, the [EE2E.app PDF agreement](#)
5. 50% of payment required upfront and 50% required after delivery of software by EE2E.app and client meeting ALL Requirements listed above.

Software Delivery

Delivery of the EE2E software is 1 business day to 14 business days from initial date of payment providing client has met all Requirements.
